## SHOULD BE REPRESENTED.

Palestine should send a representa-16th, at which time an East Texas industrial congress will be formed in Star. connection with the meeting of the movement is a good one, and every town in the East Texas belt should be represented. Tyler has appointed a big delegation to go over, and other towns are doing likewise. The idea is to get together to boost East Texas and send out advertising to other parts of the world. This plan has been adopted in South Texas and the results speak for themselves. By cooperation a much larger territory can be covered at less expense and the East Texas country can be brought to the public attention. The very best section of Texas has never been boosted as it should be, and it is the object of the promoters of this meeting to remedy this matter, and see that East Texas is properly presented.

### 000000000000 IS NEWSPAPER EASY?

Men who make newspapers sometimes believe that their profession is an exacting one. They are wrong. It is the simplest calling. Making a newspaper is an easy trick. Anybody . . . . . . . . . . . . . . . . . .

A lawyer with only a diploma and a brass sign who would lose a suit even if the other side were ready to confess judgment, will tell you how to run a newspaper. A physician who would send his patient to the morgue before the prescription has been filled will know all the fine points of making a newspaper. An actor who never earned any other plaudit than a soft tomato will give instructions in handling the world's news. Any old lady who knows enough to get off a street car backward has positive opinions on the press. Even a society person who never paid anything but a call, or made anything but a visit, or did anything but a tailor, knows how stupid those men are who write "stories," edit "copy," wrestle with "heads" that won't fit, and get the paper out on

One reason for the universality of perfection in this trade, among those who do not work at it, is that everybody has been employed in it. It is a most unusual thing to meet a man. who, when the occasion seems ripe, on the war-path. For a seventy-three will not say, 'I used to be a newspaper man myself." Every time a man works his country editor for puff on the strength of a big pumpkin, he graduates in journalism. When he writes a "piece" for "The Squash County Clarion" about "a most enjoyable entertainment," he completes his post-graduate course in newspaper work, and when he writes a communithe editor he becomes a thirty-third degree member of the Tribe of Scribes.

That so many men have abandoned literature for the law, medicine and other easy walks of life simply shows tion to Nacogdoches on April 15th and that many men would rather fail in one thing than another.-Washington

Some of the Texas exchanges comment that Col. George Burkitt of Houston has submitted a street car tine proposition to Palestine. We would have these brother editors know that Col. George belongs to Palestine, but is only headquartering in Houston for business reasons at the present time.

We suppose the suggestion will do no good, but it is a double-riveted cinch that Palestine should have a ball park and a ball team for the summer. Baseball is a good, clean sport and there are few people who do not enjoy a good ball game. Besides, the doesn't it? It's the "Sterling" Light summer is very long unless there is a Globe. self in excellent company. estine Daily Herald says:

"The Herald believes Representative Burleson made a bad break when he moved that the speaker of the house be removed and a new speaker elected. The fight had been made against Cannonism and not against Cannon, and Burleson forced the republican insurgents to vote with the regulars on the question. The fight should have been stopped when Cannonism got its death blow."

Norris led the insurgents and the resolution calling for the resignation of Speaker Cannon should have come from the insurgent camp. But it is all over now and "Uncle Joe" is as jaunty as ever and is making the best of it. He accepted that vote of vindication as meekly as a roaring lion year-old, he is the wonder of the American political world.-Dallas Times Herald.

THE LIQUOR QUESTION.

some few men will have drink at any take home to his family and less to pay at saloons. There is the little town of Mineola prohibition benefited, or at least many families have homes today they would never have had if the town had not gone dry. I met people there a few years after the prohibition election that I had known before who never had garments suitable to attend church before the election, and I had to ask who they were, the change had been so great, and all other dry towns are benefited in the same way. I believe with persistency, faith and prayer on the part of the women of this land this huge evil can be dealt with as an offense against law and private morals. The storms of life are lessened by our love of God and the nearer we live to Him the lighter our burdens seem, Next to God, man believes in the goodness and purity of woman. He believes that God does and will hear her prayers, and when she comes to him in his haunts of sin, in her purity and faith, and asks God to touch his heart and change his will and power, God does touch and change him. Hope.
